

How to Participate

Joining the Conference Call

Both new students starting any Energy Medicine University (EMU) program and anyone interested in EMU or the topic are welcome to participate.

To participate:

1. RSVP to registrar@EnergyMedicineUniversity.org.
2. At the time of the event, call (213) 342-3050. Follow the instructions. The access code is: 715314.
3. The only charge is whatever you normally pay to make a call to area code (213). The event is free.
4. If you have problems connecting, email registrar@EnergyMedicineUniversity.org. That email address will be monitored during the call for any written questions.

Dr. Marcia Emery - Intuition and Dreamwork

Professor Marcia Emery will be answering questions on her courses and work in the areas of intuition and dreamwork in a conference call format on

Saturday, February 11, 5 p.m. Pacific.

What is intuition? It's a clear understanding that comes not from our logical mind—the part that knows how to do the math—but from a deeper part of our being. It's the secret of heeding premonitions, acting on bolts from the blue, and paying attention to your quiet inner voice, which is what successful people always do, whether they are conscious of it or not. Intuition is the deepest wisdom of the soul.

The noise of the day often silences the intuitive voice which gets a chance to speak clearly through a dream by providing a warning, direction, or guidance. Dreams provide a focus and driving force. You can capture these insights and unravel puzzling dream symbols by opening the intuitive gateway, day or night.

Read more about Dr. Emery at the EMU website. A webinar video recording is also at the EMU website. Next courses start March 1st.

Marcia Emery, Ph.D. is one of the country's foremost authorities on the power of intuition to change our lives. Her passion is to help people transform life's problems, struggles and even tragedy into triumph in order to live fully and radiantly.

Intuition is a potent gift we all have, and one we can learn to tap into and use every day.

-Professor Marcia Emery
