Vitae

Ph.D. Psychology (Personality), University of California at Berkeley (1995)

M.A. Psychology (Clinical), University of Arizona at Tucson (1984)

B.A. Psychology, University of California at Santa Cruz (1983)

Primary Field of Specialization:

Research applications and development of psychological assessment methods including self-report scales and inventories, observer-based criterion, over-time assessment techniques, and conceptual analysis of research instruments.

Secondary Field of Specialization:

Theoretical and measurement perspectives on personality development in adulthood, with emphasis on transitional cognitive processes and psychological integration.

PROFESSIONAL WORK HISTORY:

Research Psychologist: University of California at Berkeley, Institute of Human Development
(1999, January - Present)

Project Coordinator for the Intergenerational Longitudinal Study.

Psychologist: Intergenerational Project on Aging and Life Integration, Wellesley College, Wellesley, MA
(1997 - Present)

Cognitive and personality assessor for the fourth adult assessment of original study members of the Institute of Human Development Intergenerational Longitudinal Study. I conduct interviews and administer cognitive assessment procedures.

Visiting Scholar: University of California at Berkeley, Institute of Human Development (1997 - 1998)

Psychological Research Consultant: Independent practice as a methodologist and psychometrician (1989 - Present)

As an independent consultant I have collaborated on the development of special purpose scales and scoring systems tailored to the specific needs of both private and public agencies, including the Central Intelligence Agency, the Office of Naval Intelligence, and the National Institute of Justice. Since 1989 I have done all the psychometrics for the California Psychological Inventory (CPI), including the 1996 revision. Recent contributions include statistical analyses for the development of a special version of the CPI for use by NASA in the testing and selection of astronauts. I serve on the CPI Advisory Committee established by Consulting Psychologists Press, Inc. In 2000 I served as a consultant for the State of California POST Commission (Commission on Police Officer Selection and Training). In collaboration with Harrison Gough, I have just completed work on a special version of the CPI to be used in business settings.

Research Associate: University of California at Berkeley, Institute of Personality Assessment and Research (1987-1995)

Research Specialist: Harrison G. Gough, Ph.D., Department of Psychology, University of California at Berkeley (1988-1993)

Graduate Student Instructor: University of California at Berkeley and University of Arizona at Tucson (1983-1986) Experimental psychology; abnormal psychology; personality theories; personality assessment; environmental psychology; social psychology.

Supervision of Undergraduate Research: University of California at Berkeley, Department of Psychology. (1985-1988) Organized and conducted personality and social psychology research practicum for undergraduate psychology majors with a focus on statistical analysis and methodology.
