EMP 872: Special Topics (3 credits)

DESCRIPTION

Students pursue advanced readings in specialty topics of Energy Medicine, as assigned by the faculty, conduct further library survey and reading of the research literature, conduct field investigation and prepare a scholarly paper suitable for publication.

Instructor:

An Energy Medicine University faculty professor will be assigned as your instructor.

Communicating With Instructor

Telephone Contact: Students should arrange all telephone communications with the instructor by email beforehand. An initial phone contact to clarify course objectives and develop a schedule should be made prior to beginning the course. This contact should be scheduled within the first few weeks of commencement of the semester. After this, periodic telephone communication can be arranged with instructor. All telephone calls will be at student's expense.

Email Contact: Reflection on and questions about the Special Topics should be addressed via email monthly or as needed. Students are always encouraged to contact the instructor via email whenever a problem arises.

Special Topics Credit Limit:

Doctorate Degree Program - 3 credits maximum

COURSE DELIVERY STYLE

Distance Education - Coursework is completed at a location determined by the student utilizing a computer that has the ability to play audio and video clips, with Microsoft Office Word, Excel, PowerPoint, Adobe Reader, along with a current web browser, internet connection and email address. Contact and communication with distance students is typically conducted by telephone, Internet, Skype, text chat, and email. Students are also encouraged to contact the University by facsimiles, and postal mail, and by personal visit to the University.

All lessons, coursework and papers must be copied to lessons@energymedicineuniversity.org from both the student and professor.

EM Special Topics

The instructor will direct students to prepare formal presentations of their EM Special Topic which address the student's EM specialty track. Students will be required to work closely with the instructor in order to achieve an acceptable paper of scholarly presentation on their chosen EM Special Topic

Text:

Note: Texts relevant to the student's Energy Medicine specialty will be assigned by the instructor.

Grading:

Course grades are based on the following elements of a student's participation and accomplishment.

In determining grades the following formula will be used:

Reading required texts – 25%
Email and Internet Discussions – 25%
Bound Portfolio – 30%
Essay or Oral examination – 20%

Using this technique, there will be 100 points assigned to the course. Final semester grades will be calculated as follows:

92-100 points = A range
86-91 points = B range
80-85 points = C range
70-80 points = D range
Under 70 points = F

Credits:

This course awards 3 semester credits.
